

A line drawing of a wooden chair with a slatted backrest and a square seat. The chair is shown from a three-quarter perspective. Three dimensions are indicated with red arrows and text: the total height is 35.75 inches (90.8 cm), the backrest height is 20 inches (50.8 cm), and the seat width is 17.75 inches (45.1 cm). The chair has four legs, a seat rail, and a backrest rail. The backrest consists of a top rail and several vertical slats. The seat is a simple rectangular board. The legs are straight and slightly tapered. There are small circles on the backrest rail and the seat rail, possibly representing screws or decorative elements.
