8. Position the assembled unit at the desired location against a wall. If necessary, adjust the pre-attached Floor Levelers at the bottom of the Legs (F and G) to level the unit. Now, follow the instructions printed on the plastic bag containing the Tipping Restraint Hardware to attach the tip-over restraint to the Top Panel (A) and the wall.

NOTE: Young children can be seriously injured by tipping furniture. You must install the Tipping Restraint Hardware with the unit to prevent the unit from tipping, causing any accidents or damage. If you wish to add the extra security of earthquake restraints, they must be purchased and installed separately.
